

Wireless Technology Park 2019

Shaping a new society with wireless technology - Beginning of 5G -

Date: May 29 (Wed) - 31 (Fri), 2019 Venue: Tokyo Big Sight West Hall 3 & 4

[Opening Hours] 10:00 a.m. - 6:00 p.m. ※Open until 5:00pm on the final day

WIRELESS TECHNOLOGY PARK (WTP) is a unique event focused on research and development of wireless communication technologies. Attracting 50,000 visitors each year, it consists of exhibition, seminars, and academic programs that widely introduce the latest technologies and products with the aim of promoting the collaboration and the innovation. This year, under the main theme "Shaping a new society with wireless technology," WTP features the 5th Generation Mobile Communication System (5G), the most advanced technologies for mobile communication, and various wireless technologies applicable to the Internet of Things (IoT) with many special programs.

Technical Topics

- Society 5.0 (Japan's initiative)
- 5G, Beyond 5G
- IoT (Internet of Things)
- ITS, Connected Cars
- Satellite/Indoor Positioning, Location Information
- Wireless Technology/System for Factory Use
- Millimeter/Terahertz Wave Communications and Applications
- Wireless Technologies for Extreme Environments (e.g. Outer Space, Off-Shore, Underwater)
- Communication Technologies for Robots/Drones

Exhibition Highlights

- 5G Tokyo Bay Summit® 2019

- Flexible Factory Project Pavilion

FLEXIBLE FACTORY PROJECT

- Location Service Pavilion
- Academia Program

(Poster session by universities, Exhibition by IEICE technical committees, Special exhibition on history of mobile communications)

More updates on web!

We welcome a lot of visitors and exhibitors from overseas and promote global collaborations and technical innovation interactively!

International Session (May 30)

WTP 2019 is scaling up its efforts to enhance international collaborations and technology transfer, through attractive offers, one of which is a complimentary presentation opportunity for exhibitors from overseas. This session is delivered in the English language, and is aimed at being a window of opportunity for foreign firms and institutions to effectively find business partners in Japan by rolling out their promising R&D activities.

English-and-Japanese Language Support

Most of the major companies will have English-speaking booth personnel during the show so that foreign visitors can learn about their exhibits and services in detail.

Business Matchmaking Support

WTP International Team will support your B-to-B networking with Japanese exhibitors. If you need our support, please consult with us by e-mail in advance to your visit.

List of Exhibitors

- AET, INC.
- AGOOP Corp.
- ANRITSU CORPORATION
- ATR-Promotions Inc.
- CEA Tech Japan Office
- CORNES Technologies Ltd.
- E&C Engineering K.K.
- ETS-Lindgren Japan, Inc.
- Flexible Factory Partner Alliance
- FUJITSU LIMITED
- Hitachi Kokusai Electric Inc.

- iDAQS Co., Ltd.
- Interplan Co., LTD.
- Japan Radio Co., Ltd.
- Japan Telegartner Ltd.
- Kanagawa Prefecture
- KDDI CORPORATION
- Komine Musen Denki Co., LTD
- KOZO KEIKAKU ENGINEERING Inc.
- MARUBUN CORPORATION
- Microwave Factory Co., Ltd.
- Ministry of Internat Affairs and Communications

- Mobile Techno Corp.
- MORITA TECH CO., LTD.
- National Institute of Information and Communications Technology (NICT)
- National Instruments Japan Corporation
- NEC Communication System, Ltd.
- NEC Corporation
- NIHON DEMPYA KOGYO CP., LTD.
- NIPPON TELEGRAPH AND TELEPHONE CORPORATION (NTT)
- NTT DOCOMO, INC.

- Omron
- Panasonic Corporation
- Rohde & Schwarz Japan
- SaNoor Technologies
- SMFL Rental Company, Limited
- Telecom Engineering Center
- The Telecommunication Technology Committee (TTC)
- TOKYO KEIKI AVIATION INC.
- TOKYO METROPOLITAN INDUSTRIAL TECHNOLOGY RESEARCH INSTITUTE

- TOYO Corporation
- VBOX JAPAN INC
- Wireless Power Management Consortium
- Wireless Smart Utility Network (WSN) Promotion Committee
- YRP R&D Promotion Committee
